WHY STEEL?

THE SMART INVESTMENT FOR GENERATIONS

Compare steel, wood, and marble across the factors that matter most: durability, safety, flexibility, value, and longevity.

FEATURES	STEEL	WOOD	MARBLE
Water & Humidity Resistance	Rust-proof with powder coating. No moisture damage. Immune to humidity and water exposure that ruins wood.	Swells with water and humidity. Warps, bends, and becomes impossible to open or close properly in damp conditions.	Unaffected by water or humidity. Remains stable in all conditions.
Termite Resistance	Termite-proof — always. Zero risk. Steel cannot be eaten, bored into, or damaged by any pest.	Termite risk — even expensive wood. No wood is immune. Termites destroy the most expensive teak as readily as cheap plywood.	100% termite-proof. Pests cannot damage marble.
Fire Resistance	Steel doesn't catch fire. In a fire emergency it doesn't fuel the flame or collapse immediately.	Catches fire easily. Wood is a fuel source. It ignites quickly and spreads fire rapidly in an emergency.	Fire-resistant and does not fuel flames.
Easy Relocation (Shifting)	Fully portable. Shifting homes means loading it onto a vehicle — arrives intact, no cracks, no damage.	Damaged badly during shifting. Wooden furniture chips, cracks, and loses its shape during loading, transport and unloading.	Cannot be moved once installed. Heavy, bulky and impractical to relocate.
Resale Value	Sell it after 10–20 years and still recover a meaningful portion of your purchase cost.	Loses resale value rapidly. Used wooden furniture has very low resale value — especially after years of use and shifting damage.	Zero resale or reuse value. Marble that is removed breaks. You cannot take it to a new home or sell it.
Internal Storage Flexibility	Drawers, racks, shelves — all possible. Full internal customisation. Any configuration of storage you can imagine.	Limited flexibility. Add-on storage is possible but comes with structural limitations and higher cost.	No drawers or internal storage possible. You cannot carve drawers, shelves, or internal compartments into marble.
Repaint & Refurbish	Repaintable to match new interiors. Powder-coat it in a different colour for your new home — brand new look, same solid frame.	Refinishing is difficult and costly. Repeated polishing reduces life and surface thickness.	Customisation is impossible after fitting. Permanent installation with no option to modify or repaint.
Long-Term Durability	Built to last for decades with minimal maintenance. Strong, stable and reliable.	Limited lifespan. Even well-maintained wood furniture degrades significantly over 10–15 years of use.	Can crack under impact. A single heavy impact can crack marble permanently — repairs are visible and costly.
Warranty Support	10-year warranty. We back every product with India's strongest powder coating warranty.	No such warranty. Repairs and replacements are expensive.	No warranty on material or installation.

STEEL

Built for life.
Strong, adaptable, secure, and designed to evolve with your needs.

WOOD

Beautiful initially,
but vulnerable to moisture, termites, transportation damage, and wear over time.

MARBLE

Premium appearance,
but permanent, immovable, and lacking the flexibility modern living requires.

> "A STEEL ALMIRAH DOESN'T JUST FURNISH A ROOM. IT STAYS WITH YOUR FAMILY THROUGH GENERATIONS."

WHY CHOOSE UNIVEST STEEL?

- Powder-Coated Protection
- Termite-Proof Construction
- Fire-Resistant Material
- Fully Customisable Storage
- Easy Relocation
- Repaintable & Refreshable
- Excellent Resale Value
- 10-Year Warranty

ABOUT UNIVEST

Built on Strength.
Designed for Modern Living.

UNIVEST is a leading Indian manufacturer of premium steel furniture. We specialize in steel powder coated furniture that combines durability, functionality and elegant design to suit every space and need.

Our diverse product range includes **Wardrobes, Steel Almirahs, Office Almirahs, Gym Lockers, Library Almirahs, Lockers, Drawer Sets, Bed Side Drawers** and many more solutions crafted to perfection.

Based in Panipat, Haryana – the hub of steel excellence, we are driven by a passion for quality, innovation and customer satisfaction. Each **UNIVEST** product is a testament to our commitment to strength, precision and built quality.

From design to delivery, we focus on one goal – to provide furniture that offers lasting value and performance.

PROUDLY MANUFACTURED IN
PANIPAT, HARYANA
The Land of Quality Steel

PREMIUM QUALITY
Made from high-grade steel with precision engineering and strict quality control.
